EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 10-29 have been canceled as directed to inventions non-elected without traverse in the election of 11-12-2007.

REASON'S FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose, in a method of extruding a tubular metal body through a porthole die, including contacting joint portions of the tube with a probe of a frictional agitation tool following extrusion and moving the tube or probe to produce a modifying treatment to produce finely divided crystal grains. The frictional agitation by a probe acting from outside of an extrusion die on a fully joined tube portion (see page 3, line 4 of Applicant's arguments) extruded from a porthole die is not taught by the prior art where the probe acts inside of an extrusion chamber to stir the extrusion (6,726,085).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
